

Shanker V. Rao

Founder and Chairman, 2SVR Global Ventures Pte. Ltd.

Shanker V. Rao is a dynamic global leader and visionary entrepreneur with over 35 years of proven success across private and public sectors. As the Founder and Chairman of 2SVR Global Ventures and its group of companies, Shanker is renowned for his ability to identify emerging opportunities, craft strategic solutions, and execute high-impact ventures that drive innovation and growth on a global scale.

2SVR Global Ventures Pte. Ltd. has a dynamic portfolio of global enterprises spanning sustainable energy, technology, telecommunications, real estate development and rural economic development.

Trailblazing Leadership in Public Policy and International Relations

A highly respected advisor in the Canadian government until 1994, Shanker held pivotal roles, including Senior Analyst to the Solicitor General and Senior Policy Advisor to the Secretary of State. He also served as a Senior Liaison to the Prime Minister's Office, where he shaped national policy.

Among his landmark achievements:

- **Leading the Passage of Landmark Legislation:** Instrumental in facilitating national consultations and drafting groundbreaking legislation that passed through both Houses of Parliament within two years—a rare and unprecedented achievement.
- **Global Compliance Oversight:** Responsible for Canada's annual reporting and compliance with international conventions, enhancing Canada's global standing.
- **Driving International Trade Diplomacy:** Actively involved in critical trade negotiations, strengthening Canada's relationships with key global partners.

Entrepreneurial Success and Global Innovation

Shanker's entrepreneurial drive has propelled him to the forefront of technology, renewable energy, and sustainable rural development across Asia, Africa, South America, and Europe. His ventures are marked by a commitment to innovation, sustainability, and economic empowerment.

- **Founder of CUSP (Municipal Green Utility Service Provider):** Spearheaded the creation of this pioneering Canadian green utility initiative to advance renewable energy solutions.
- **President & CEO, HalifaxTel International:** Negotiated and secured a landmark 30-year contract in Southern France to design, build, and operate a cutting-edge broadband service network across 13 municipalities.
- **Global R&D Leadership at AVAYA:** Led international R&D teams and initiated transformative data networking projects across Asia-Pacific, Europe, and the Americas.

Game-Changing Achievements in Emerging Technologies

As President and CEO of SoshaCom, Shanker developed and deployed forward-thinking technologies with far-reaching global impact. His strategic acumen enabled the successful execution of several pioneering initiatives, including:

- **World's First Wireless Broadband Service on High-Speed Trains:** Designed and demonstrated this technological breakthrough, redefining possibilities for mobile broadband.
- **Advisory Role to Global Governments:** Provided expert guidance on ICT strategies and sustainable rural economic development to governments in Asia, Africa, and Latin America.

Vision for the Future

Today, Shanker continues to pursue bold new ventures across multiple sectors, harnessing his expertise to drive sustainable, economic, and technological innovation on a global scale. His legacy is defined not just by financial growth but by the enduring value he creates for communities, economies, and ecosystems worldwide.
